ABSTRACT

The Association of American Medical Colleges presents the results of their Annual Salary Questionnaire for medical school faculties for the fiscal year 1971-72. Ninety-five schools submitted returns and salaries of 4,930 basic scientists and 11,941 clinical scientists are reported in the survey. The areas covered include strict full-time faculty by department; and base salaries and total income geographic by department. Both base salaries and total income are reported. (JMF)

FOREWORD

We are pleased to present the results of the Annual Salary Questionnaire for medical school faculties for the fiscal year 1971-72. Ninety-five schools have submitted returns on faculty members. Salaries of 4,930 basic scientists and 11,941 clinical scientists are reported in this survey.

As a result of special studies completed this year, we believe that this report provides more accurate data than in the past. The information pertaining to the salaries of strict full-time faculty has always been reasonably complete and reliable. This year, we have improved the reliability of reporting for geographic full-time faculty. In order to do this, however, it was necessary to delete a number of persons previously carried in the report. Of course, the accuracy of the reported data depends upon the accuracy of the returns. Only by improving the reporting for this category of faculty can significant data be obtained.

These figures do not necessarily reflect the total income of the faculty but only the salary provided through the school for professional services for teaching, service or research. Supplementary forms of income such as honoraria, consultation fees, and lectureships are frequently not included in salary returns.

We would appreciate any suggestions for improvement or other comments concerning this survey.

Thomas J. Campbell
Assistant Director
Division of Operational Studies
